We at KAHLES share the passion and professionalism of ambitious shooters and hunters.

We passionately support their aspiration to continually enhance performance.

We do this with intuitive simple and smart products, which impress with uncompromised focus on the real essentials, based on profound user insight and a wealth of know-how.

WORLD FIRST

THE NEW ERA

OF TACTICAL

RIFLESCOPES

K328i

3.5-28x50i

The groundbreaking new-generation of optical design of the K328i sets new performance standards with a 40% wider field of view*, an exceptionally comfortable eyepiece and 8x zoom with perfect optical performance across the entire adjustment range.

40%

wider field of view

*Based on comparison with the K525i at 25x magnification.

K328i

THE GAME-CHANGER

The groundbreaking K328i sets new performance standards with a pioneering new-generation optical design. It offers a 40% wider field of view*, an exceptionally comfortable eyepiece and 8x zoom with perfect optical performance across the entire adjustment range.

Absolute precision, repeat accuracy and unique handling for maximum performance.

NEW
3.5-28x50i

PRODUCT HIGHLIGHTS

- ◆ Revolutionary optical design with a 40% wider field of view* and an exceptional eyepiece
- ◆ 8x zoom with perfect optical performance over the entire adjustment range
- ◆ Windage adjustment on the left or right with TWIST GUARD rotation protection
- ◆ Patented parallax adjustment integrated in the elevation turret (20 m till ∞)
- ◆ Absolutely reliable repeat accuracy and clearly defined clicks
- ◆ Precise illuminated reticles in 1st focal plane

*Based on comparison with the K525i at 25x magnification.

K525i

PROFESSIONAL CHOICE FOR HIGHEST DEMANDS

The K525i combines maximum optical performance and precision with unique handling and ergonomics. A rugged riflescope for professionals, with windage optional left or right, precise illuminated reticles in 1st focal plane and the unique TWIST GUARD windage.

5-25x56i

PRODUCT HIGHLIGHTS

- ◆ Maximum optical performance – field of view, high contrast image, high definition
- ◆ Absolutely reliable repeat accuracy and precise, clearly defined click mechanism
- ◆ Optional left or right side windage
- ◆ Parallax wheel integrated into the elevation turret (patented) 20 m till ∞
- ◆ Innovative TWIST GUARD windage (patented)
- ◆ Precise illuminated reticles in 1st focal plane

FEATURES

RETICLES

*As stock last

Parallax wheel integrated into the elevation turret (patented), windage optionally left or right.

Superior handling and ergonomics thanks to the unique arrangement of operating elements

Due to the unique arrangement, all operating elements can easily and comfortably be operated with the intuitively preferred hand. Without having to reach over the riflescope or having to move out of the shooting position, all relevant information is always in the visual field.

All riflescopes of the K-series have the parallax wheel integrated into the elevation turret.

The patented central arrangement on top of the riflescope makes right and left-handed operation equally comfortable.

Ergonomically the windage is perfectly placed on the left side for right-handed shooters and on the right side for left-handed shooters.

Unique TWIST GUARD windage (patented)

TWIST GUARD windage.

The innovative TWIST GUARD windage with its freely rotating end cover, reliably preventing accidental movement of the windage.

This simple solution not only protects the windage from accidental movement, it also allows the shooter fast and unhindered handling of the windage without the need for cumbersome “locking” and “unlocking”.

Maximum precision with the special MOAK reticle and 1/4 MOA click adjustment

MOAK turret with three planes of rotation and indicator pin.

The 1/4 MOA click adjustment and a perfectly designed reticle in the 1st focal plane guarantee maximum precision over long distances. The specially designed MOAK turret has a 3rd rotational plane and allows simple, precise operation over the entire adjustment range.

K525i DLR COMPETING ON TOP LEVEL

The K525i combines maximum optical performance and precision with unique handling and ergonomics. The **DLR** variant is optimised for the fast action nature of **Dynamic Long Range** competitions. It features extended field of view, easy to read clicks, extra long throw lever and parallax spinner.

5-25x56i DLR

PRODUCT HIGHLIGHTS

- ◆ Maximum optical performance with extra wide field of view
- ◆ 100 clicks per rotation – absolutely reliable repeat accuracy and clearly defined clicks
- ◆ Extra large turret lettering for easy and fast reading
- ◆ Windage adjustment on the left or right, patented parallax adjustment integrated in the elevation turret
- ◆ Special equipment: extra long throw lever & parallax spinner for quick adjustments
- ◆ Precise illuminated reticles in 1st focal plane

K318i

ULTRASHORT PRECISION TOOL

3.5-18x50i

The K318i means optical and mechanical perfection packed into an ultrashort design. With precise illuminated reticles in 1st focal plane, sharply defined throughout the entire magnification range and the unique TWIST GUARD windage.

FEATURES

RETICLES

PRODUCT HIGHLIGHTS

- ◆ Ultrashort and lightweight riflescope with wide field of view and high contrast image
- ◆ Absolutely reliable repeat accuracy and precise, clearly defined click mechanism
- ◆ Optional left or right side windage
- ◆ Innovative TWIST GUARD windage (patented)
- ◆ Parallax wheel integrated into the elevation turret (patented) 25 m till ∞
- ◆ Precise illuminated reticles in 1st focal plane

6-24x56i

K624i PROFESSIONAL CHOICE FOR LONG DISTANCES

The K624i sets standards in handling and ergonomics thanks to the unique arrangement of its operating elements. It offers outstanding optical performance, mechanical perfection and a unique range of well proven reticles for professionals.

FEATURES

KAHLES BALLISTIC TURRET

Practical assistant
for long-range shots

Ballistic Turret
(optional)

Calculate the distance – set – let's go!

The new HELIA BT and K16i/K18i BT ballistic turrets take the guesswork out of aiming at different shooting distances. They impress with user-friendly operation and individual adjustment to the ballistics.

KAHLES ballistics turrets are available only for KAHLES riflescopes HELIA, HELIA 3, K16i, K18i and K18i-2.

KAHLES ballistics turrets can be mounted by the user in a few simple steps. The clearly identifiable stickers supplied provide the option of adding 100 % precise markings for individual ballistics, which can be changed quickly and easily if required.

HELIA RD-C

ROBUST RED DOT SIGHT FOR DRIVEN HUNT

The HELIA RD-C has been designed for the safe shot, even under toughest conditions. Reliable in every detail.

PRODUCT HIGHLIGHTS

- ◆ Anti-Reflexion coating for clear visibility
- ◆ Precise 2 MOA dot for minimum target covering
- ◆ 4 manual illumination settings with intelligent automatic switch-off and MAX LIGHT function for extreme backlight situations
- ◆ SAFE LIGHT function to secure the red dot
- ◆ Picatinny mount with quick release and screw locking included
- ◆ Flip up covers included

HELIA RD-C

FEATURES

Automaticlight

HELIA RD

RED DOT SIGHT FOR DRIVEN HUNT

The HELIA RD has been designed for the intuitive shot. It features a unique Anti-Reflexion coating for clear visibility and a precise 2 MOA dot for minimum target covering.

PRODUCT HIGHLIGHTS

- ◆ Unique Anti-Reflexion coating for clear visibility
- ◆ Precise 2 MOA dot and Easyclick
- ◆ Picatinny mount or adapter plate for most popular European mounts included
- ◆ 4 manual illumination settings with intelligent automatic switch-off
- ◆ Easy to change battery

HELIA RD

FEATURES

Automaticlight

Protective cap with compartment for spare battery

AUTOMATIC-LIGHT

The intelligent reticle illumination for longer battery life

Automaticlight

All illuminated hunting riflescopes are equipped with a tilt sensor. This detects whether or not the riflescope is in a shooting position. The sensor transmits this information immediately to the illumination unit and controls thereby its switching on and off, in order to save valuable energy when not in use.

Active mode

- ◆ The switched on reticle illumination with automaticlight is always active in the angular range of 75° (right/left).

Standby mode

- ◆ After being motionless for 2 minutes in active mode, the backlight turns off and enters "Standby" mode. For reactivation from the "Standby" mode the smallest movement is sufficient and the reticle illumination is activated in fractions of a second with the last selected brightness.
- ◆ Angles ranging from 45° – 75° (up/down) trigger the "Standby" mode, regardless if motion is sensed or not after 2 minutes.
- ◆ From an angle range of more than 75° (up/down/side), the reticle illumination switches off immediately and switches to "Standby" mode.

After 2 hours of inactivity, the lighting switches off completely. To reactivate the lighting unit, the rotary switch must be switched off and on again.

HELIA RD-C and HELIA RD

The HELIA RD-C/RD is equipped with a motion sensor. After being motionless for 3 minutes, the red dot turns off and enters "Standby" mode. In the "Standby" mode, the smallest movement is sufficient to re-activate the red dot in fractions of a second with the last selected brightness level. After 4 hours of inactivity, the red dot switches off completely.

HELIA TI+ RADICALLY EASY DETECTING

In every detail, HELIA TI+ thermal imaging devices are radically optimised for hunting. They combine intuitive, user-friendly handling with excellent imaging performance and an exceptionally large field of view. Not a button too many and none in the wrong place. Uncompromising simple and fast detection day and night.

TI 18+ | TI 35+

PRODUCT HIGHLIGHTS

- ◆ Radically simple and intuitive – with only 2 control buttons
- ◆ High-contrast image with unsurpassed detail recognition
- ◆ Exceptionally large field of view of up to 44 m/100 m
- ◆ Intelligent automatic switch-on/-off display with tilt and motion sensor
- ◆ Ready to use in just a few seconds
- ◆ Drop-proof, waterproof and ready for use in extreme temperatures
- ◆ Long battery life – even at –20 degrees Celsius
- ◆ Ergonomic, roll-proof design and perfectly placed controls

TI+ VGA-Sensor
3x more pixels
40% lower NETD

With the latest generation of high-resolution 12µm VGA sensors – for a high-contrast image with unsurpassed detail recognition.

in comparison with standard QVGA sensors

TI 18+ Fast detection with an exceptionally large field of view of 44 m/100 m.

TI 35+ Reliable identification with outstanding detail recognition and 2x to 16x magnification.

AUTOMATICLIGHT

The intelligent display uses a tilt and motion sensor to automatically switch itself on and off, known as "Automaticlight", which avoids any distracting light output from the display and allows immediate reactivation without having to press a button.

This function also contributes to efficient energy management for the devices, allowing a very long battery life of up to 8 hours.

HELIA 42 RF COMFORTABLY EASY AND RELIABLE

The lightweight and ergonomic HELIA 42 RF perfectly combines brilliant optics with reliable targeting up to 1,500 m on common hunting targets (deer, tree). It stands out for intuitive simple handling and useful hunting features like patented EAC (Enhanced Angle Compensation) and scan mode.

PRODUCT HIGHLIGHTS

- ◆ Easy and reliable targeting up to 1,500 m on common hunting targets
- ◆ Intuitive simple menu navigation
- ◆ Patented EAC-function (Enhanced Angle Compensation) for angle correction
- ◆ Long-range (LR) function for ranging easy to detect targets up to 4,500 m
- ◆ Premium-quality OLED display with five manual brightness settings and display in meter or yards
- ◆ Scan mode, temperature and air pressure display
- ◆ Extra long battery lifetime ~ 4,000 measurements

8x42, 10x42

HELIA S 42

THE PERFECT ALL-ROUNDER

The HELIA S 42 impresses with uncompromising focus on the real essentials: functionality, reliability, handling and aesthetics. The perfect all-rounder for hunting.

PRODUCT HIGHLIGHTS

- ◆ Powerful high contrast optics system with exceptional edge sharpness
- ◆ Wide field of view of up to 136 m
- ◆ Light and ergonomic – for high observation comfort even during long periods of use
- ◆ Durable and resilient with a robust magnesium housing
- ◆ High quality comfort strap with an innovative quick release fastener

8x42, 10x42

HELIA 42 IDEAL FOR STALKING AND HUNTING IN THE MOUNTAINS

The natural colours, the lightweight, balanced design with the open bridge and the unique, silent protective cover made of high-quality loden cloth are perfectly suited for inconspicuous carrying and observing on the hunting ground.

HELIA 56 MADE FOR THE NIGHT

The light sensitive HELIA 8x56 is perfectly right for the night. It persuades with a brilliant optic. Its pronounced individuality is underlined by the ergonomic design, the natural colour and the Waldkauz® leather strap with its well matching colours.

HELIA RF-M

FAST DISTANCE MEASURING

The compact HELIA RF-M 7x25 offers ergonomic design, intuitive and simple handling and is equipped with a large field of view and relevant hunting features. You are able to measure the distance simple and fast and you can concentrate, during the hunt, on the real essentials.

PRODUCT HIGHLIGHTS

- ◆ Easy and reliable targeting up to 2,000 m
- ◆ Ergonomical design, intuitive handling, simple menu navigation
- ◆ Exceptional edge to edge clarity and large field of view of 117 m/1,000 m
- ◆ Premium-quality OLED display with five manual brightness settings and display in meter or yards
- ◆ EAC-function (Enhanced Angle Compensation) for angle correction (patented)
- ◆ Scan mode, temperature- and air pressure measurement
- ◆ Extra long battery lifetime ~ 4,000 measurements
