

Press Release

Guntramsdorf, December 2016

KAHLES K624i now also available in color RAL 8000

The K624i is the perfect example of innovation and quality derived from over 116 years' experience building the world's finest rifle scopes. Designed for applications where the purest optical clarity can mean the difference between a hit or miss. This optic sets new standards with incredible resolution, contrast, and over 95% light transmission.

Specifically engineered for long range precision, built without compromise and featuring a special selection of advanced illuminated reticles, the K624i delivers the highest level of performance ever achieved.
