### **NEW** KAHLES Helia riflescopes Noticeable perfection

The new Helia models have no technical gimmicks and do not over state theoretical performance data. They simply impress with uncompromising focus on the real essentials of hunting: Functionality, reliability, ergonomics and aesthetics.

The new Helia models conform to a high degree with our simple and honest quality requirement, which is: Noticeable perfection. By taking a look through the eye piece you can experience for example the exceptional optical performance and quality, that makes the new Helia models stand out in the crowd in the relevant price bracket.

A simple range, consisting of only three models, perfectly covering all hunting applications. Every model offers not more, but also nothing less than optimum functionality and performance for its area of use. Each one being a perfect tool for even the highest hunting demands.

### The ideal solution for any hunter

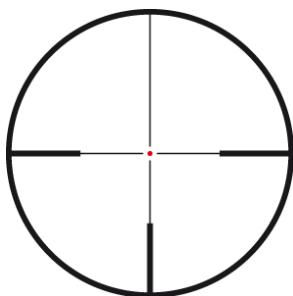

The powerful optical system amazes users with its high contrast and exceptional edge to edge clarity and sharpness. Every model in the Helia series is equipped with our tried and tested OILPHOBIC coated lenses and illuminated day/night reticle in second focal plane and features the intelligent automatic switch-off function. A ballistic drop compensation (BDC) and SR-Rail are available as an optional extra.

The new Helia series will replace the entire 30 mm hunting riflescope range. Available from May 2017.

<b>Helia 1-5x24i</b> <b>Ideal for driven hunting</b>	<b>Helia 2-10x50i</b> <b>Perfect for stalking</b>	<b>Helia 2,4-12x56i</b> <b>Top-class for hide hunting</b>
Especially compact driven hunt optics with an ultra-wide field of view (42 m/100 m). True 1x magnification and an extra-bright day/night illuminated reticle	Simple, easy-to-use game stalking optics with a large, high-contrast field of view and excellent performance during dawn and dusk	Top performance for hide or stand hunting thanks to exceptionally high light transmission, whether at dawn, dusk or night, perfect contrast and a wide, brilliant field of view
Reticle in 2 <sup>nd</sup> focal plane automaticlight BDC (optional) SR-Rail (optional)	Reticle in 2 <sup>nd</sup> focal plane automaticlight BDC (optional)	Reticle in 2 <sup>nd</sup> focal plane automaticlight BDC (optional) SR-Rail (optional)
<b>NEW</b> Reticle 4-DH	Reticle 4-Dot	Reticle 4-Dot / G4B
<b>€ 1.500,00</b>	<b>€ 1.600,00</b>	<b>€ 1.700,00</b>

Additional charge for available SR-Rail: €70.00 / Ballistic Drop Compensation (BDC): €250.00

### **NEW** 4-DH – The driven hunt reticle

Based on the classic KAHLES 4-Dot reticle, the 4-DH has been developed for fast, intuitive shooting. Fine orientation lines which are almost invisible in the background and a precise detached illuminated point which has been optimised for daylight, dusk and dawn guarantee the best possible view and easy target acquisition.

### KAHLES – the rifle scope pioneer since 1898

As the world's oldest rifle scope manufacturer, KAHLES has set many milestones in the course of its company history. However, its strong market position is based not only on pioneering work in the past, but also on lasting and innovative development and production in Austria. Every KAHLES product is developed and manufactured exclusively in the production plant in Guntramsdorf based on the highest quality standards, and undergoes rigorous checks before beginning its journey to customers around the globe. More than 50 employees work at the plant near Vienna, creating cutting-edge precision optical products with extremely tight tolerances.
