Guntramsdorf, January 2021

NEW KAHLES K525i dynamic long range (DLR) COMPETING ON TOP LEVEL

K525i - 5-25x56i DLR

The K 525i combines maximum optical performance and precision with unique handling and ergonomics. The new DLR model was optimised for the high requirements that the speed at Dynamic Long Range competitions brings, while additionally being equipped with an extra wide field of view, easy readable clicks, extra-long throw lever, and a parallax spinner.

The central array of the parallax wheel is only available at and patented by KAHLES, which allows for ergonomically optimal and extremely quick - both right- and left-handed - operation of the adjustment options for side elevation and parallax correction. The important click indicators on the turrets were enlarged even more on this K525i model and are now easier to read and operate from the shooting positions in DLR disciplines and their fast time laps.

The TWIST GUARD anti-twist safeguard that was established and patented in the meantime reliably prevents accidental adjustment of the windage turret with its freely rotating covering cap. It allows for fast, unobstructed operation by the shooter, without time-consuming "locking" or "unlocking". The supplied extra-long throw lever and the parallax spinner ensure for an even faster and more intuitive adjustment of magnification and parallax. The K525i DLR is furthermore equipped with the newly developed illuminated reticle [SKMR4](#) on the first focal plane, specifically developed for the dynamic requirements of competitions, such as PRS.

With the K525i DLR, the shooter can concentrate on the essentials in a competition and hit the target even faster.

PRODUCT HIGHLIGHTS

- ◆ Maximum optical performance with extra wide field of view
- ◆ 100 clicks per rotation - absolutely reliable repeat accuracy and clearly defined clicks
- ◆ Extra-large turret lettering for easy and fast reading
- ◆ Optional left or right TWIST GUARD windage
- ◆ Special equipment: extra-long throw lever & parallax spinner for quick adjustments
- ◆ Precise illuminated SKMR4 reticle in 1st focal plane

TECHNICAL DATA

Order number	10677	10678
Magnification	5-25	5-25
Objective lens diameter (mm)	56	56
Exit pupil diameter (mm)	9,5-2,3	9,5-2,3
Eye relief (mm)	95	95
Field of view (m/100m)	7,7/1,6	7,7/1,6
Diopter compensation (dpt.)	+2/-3,5	+2/-3,5
Twilight factor (ISO 58388)	16,7-37,4	16,7-37,4
Parallax adjustment (m)	20-∞	20-∞
Impact correction per click	0,1 MRAD	0,1 MRAD
Adjustment range E/W (m/100m)	2,9/1,3	2,9/1,3
Adjustment direction	CCW	CCW
Windage	left	right
Tube diameter (mm)	34	34
Zero Stop	✓	✓
TWIST GUARD	✓	✓
Objective filter thread	M58 x 0.75	M58 x 0.75
Length (mm)	377	377
Weight (g)	995	995
Focal plane	1 st	1 st
Reticle (illuminated)	SKMR4	SKMR4
Battery type	CR2032	CR2032
Warranty	10 years (2 years electronic)	
Accessories (included)	Throw Lever, Parallax Spinner with engraving KAHLES / Tenebraex Flip Up Cover 56mm KAHLES / Tenebraex Flip Up Cover ocular 46mm	
Accessories (optional)	KAHLES / Flatline Bubble Level 34mm Sunshield 56mm Tenebraex Killflash ARD 56mm	

The K525i DLR will be available in stores starting March 2021 for a retail price of € 3.550. High-resolution images and our introduction video can be found on our website in the [Newsroom](#).
