

KAHLES BALLISTIC DROP COMPENSATION

Order Form customised ballistic ring

The KAHLES ballistic ring enables personal customisation and engravings of the desired margin distances in 50 meters steps for your used type of ammunition.

To order an individual ballistic ring please proceed as follows:

1. Sight in your riflescope with the corresponding ammunition on 100 meters' distance.
2. Notice the respective clicks in 50m distance steps: e.g. for the distance mark 150 meters you count the clicks of the KAHLES ballistic drop compensation ring which you need from 100 meters to 150 meters shooting distance. For the distance of 200 meters count from 100 meters to 200 meters and so on.
3. Fill in the form with your details and send it to your gunsmith.

Invoice address / Personal data

Title / First name / Last name

Street / Zip-code / Town / Country

Telephone / E-Mail

Technical data

Riflescope model (e.g. HELIA 2,4-12x56i, ...)

Ammunition name

Calibre

Bullet type (incl. weight)

Distance	100m	150m	200m	250m	300m	350m	400m
