KAHLES

EVENT REPORT

60 international shooters from 16 countries, individual classification, 8 stages, time limit.

Prices K525i | HELIA RF 10x42 | HELIA 8x42

The third KAHLES Dynamic Long Range Competition was successfully held on 29.-30. August 2019 in Felixdorf. Together with the Austrian Armed Forces a challenging and varied shooting event was organized, which was very demanding and exciting for the international shooters. Summer weather conditions (outside temperatures ~30-34°C / wind force 2-5m sec.) enabled a great competition with fair conditions for all participants. The given time limit, which was just 2 minutes on the 8 different stages and very special tasks, which were both physically and psychologically challenging, made this KAHLES competition sweaty besides the high temperatures.

DAY 1

Punctually and exactly according to plan, after an intensive briefing, the official start signal sounded at 12.30 p.m. and the shooters started to the assigned stages and started to place their hits. In addition to Sius "live" recordings, the hits were documented by the individual Range Officers. Each stage had different goals, distances and times, which could be achieved with a strictly regulated number of ammunition. From the covered rifle scope to the water bath, many surprises awaited the shooters. Some of them reached their limits, some of them showed incredible performances. Nevertheless, the joy of shooting was at the top and many laughing and positive faces made this sporting event unique.

500-1000m | 2 minutes | Hill | lying

V – tire frustration

500-600m | 2 minutes | water filled tires | standing

VI - slalom

400-900m | 2 minutes | Truck | lying

VII - sequence

500-700m | 2 minutes | Truck | lying

Without any relevant incidents the competition ended on the first day at 18:30pm and the intermediate result was posted on the black board.

Day 2

The second day began again with bright sun in the sky and noticeable tension among the participants. Because nobody knew which challenges had to be mastered next. The briefing at 09:30am made the suspense rise again, as different very difficult paper targets, set at 400 m, were waiting for the shooters. Horn signals had to be followed meticulously at start and stop and the distance from shooter to shooter - in lying position - on the field was hardly more than 10cm. Threaded up in a 70m long line the given missions (invisible1, piano, green light, invisible2, twisting nerve) had to be completed in shortest time intervals and absolutely unprepared.

Here, detailed knowledge about the use of reticle, the correct operation of the rifle scope turrets, click accuracy and optical performance were the keys to success. In the end, every single hit

KAHLES

counted to win this crucial challenge. After that the final points were evaluated.

Meanwhile, it was possible for the shooters to train on one Sius shooting range at long distance, or spend their time until the award ceremony started with barbecue specialties in the supply tent and with talks of their shooting experiences.

At 15:00pm it was "time of the truth" - the expected award ceremony began. With congratulations from commander-in-chief of the ÖBH-ARWT Felixdorf, Mr. Brigadier M. Janisch and our team we could present the three KAHLES main prizes to the winners.

Winner of the III KAHLES DLRC 2019

II Aleksei Chernobrovkin (RUS)
445,0 Points

I Aleksandr Kravtsov (RUS)
485,0 Points

III Sergei Emelianov (RUS)
440,5 Points
